Grace was the youngest trainer to get her licence in 2014 and she has built a growing yard with owners that enjoy the experience and personal attention not always received from some of the bigger trainers.

We love and look after the horses in our care like our own, welfare comes first & when they retire we go the extra mile to retrain them and find brilliant homes.

As we are a small yard, we are able to give our horses that all important personal attention & training. We are able to understand the individual horses personalities and figure out what makes them tick, to get the best performance from them.

"SOME DIFFICULT HORSES JUST NEED A BIT OF LOVE & ATTENTION TO ENJOY THEIR JOB"

We are a mixed yard with flat and national hunt horses, with some great prospects. The yard is strengthening each year with quality horses that are coming through. Our win ratio is improving and that makes it all worth while.

We try to keep training fees reasonable for owners without jeopardising the high care and attention that each horse receives and deserves whilst focusing on the racing experience and a great day out!
